

NVIDIA Accelerators for HPE

NVIDIA RTX PRO 6000D 84GB PCIe Accelerator for HPE (S6W21C)

NVIDIA®

What's new

- NVIDIA® RTX PRO 4500 Blackwell Server Edition 32 GB PCIe Accelerator for HPE (for China/HK)
- NVIDIA® RTX PRO 6000 Blackwell Server Edition 96 GB PCIe Accelerator for HPE
- NVIDIA® RTX PRO 6000D Blackwell Server Edition 84 GB PCIe Accelerator for HPE (for China/HK)
- NVIDIA® RTX A400 4GB PCIe ATX Brkt PCIe Accelerator for HPE
- NVIDIA® RTX A400 4GB PCIe LP Brkt PCIe Accelerator for HPE

Overview

Do you require higher performance for artificial intelligence (AI) training and inference, high-performance computing (HPC) or graphics? NVIDIA Accelerators for HPE help solve the world's most important scientific, industrial, and business challenges with AI and HPC. Visualize complex content to create cutting-edge products, tell immersive stories, and reimagine cities of the future. Extract new insights from massive datasets. Hewlett Packard Enterprise servers with NVIDIA® accelerators are designed for the age of elastic computing, providing unmatched acceleration at every scale.

Features

Develop and Deploy AI at Any Scale

Build new AI models with supervised or unsupervised training for generative AI, computer vision, large language models (LLM), scientific discovery, and financial market modeling with NVIDIA® accelerators and HPE Cray systems.

Get real-time inference for computer vision, natural language processing, fraud detection, predictive maintenance, and medical imaging with NVIDIA® accelerators and HPE ProLiant Compute Servers.

NVIDIA Accelerators for HPE improve computational performance, dramatically reducing the completion time for parallel tasks, offering quicker time to solutions.

NVIDIA® Qualified and NVIDIA® Certified HPE Servers

NVIDIA Accelerators for HPE undergo thermal, mechanical, power, and signal integrity qualification to validate that the accelerator is fully functional in the server. NVIDIA Qualified configurations are supported for production use.

NVIDIA® Certified HPE servers are tested to validate both multi-GPU and multi-node performance for a diverse set of workloads to deliver excellent application performance, manageability, security, and scalability.

HPE Integrated Lights-Out (iLO) Management

HPE iLO server management software enables you to securely configure, monitor, and update your NVIDIA Accelerators for HPE seamlessly, from anywhere in the world.

HPE iLO is an embedded technology that helps simplify server and accelerator set up, health monitoring, power, and thermal control, utilizing HPE's Silicon Root of Trust.

Technical specifications		NVIDIA RTX PRO 6000D 84GB PCIe Accelerator for HPE
Product Number	S6W21C	
Platform supported	HPE Mainstream Compute Platforms	
Number of accelerators per card	1	
Memory size per board	84 GB GDDR7 w/ECC	
Memory bandwidth for board	1398 GB/s	
Accelerator applications	Hardware-accelerated ray tracing, advanced shading, deep learning inference, real-time rendering, virtual workstations, and cloud gaming.	
Architecture features	<p>NVIDIA Blackwell is the most powerful professional RTX GPU ever created with the latest SM and CUDA® core technology. The SM features increased processing throughput, and new neural shaders that integrate neural networks inside of programmable shaders to drive the next decade of AI-augmented graphics innovations.</p> <p>Fifth-generation Tensor Cores deliver up to 3X the performance of the previous generation and add support for FP4 precision and DLSS 4 Multi Frame Generation technology. Accelerate local LLMs, prototype new AI models, and drive enhanced content creation and graphics.</p> <p>Fourth-generation RT Cores deliver up to 2X the performance of the previous generation, accelerating rendering for M&E content creation, AECO design, and manufacturing prototyping. Create photoreal, physically accurate scenes and immersive 3D designs with neural graphics-based technologies, such as RTX Mega Geometry, enabling up to 100X more ray-traced triangles.</p>	
System	Compatible with HPE ProLiant DL380a Gen12, DL380 Gen12, DL385 Gen11	
Product dimensions (metric)	21.49 x 24.7 x 6.19 cm	
Weight	0.44 kg	
Warranty	For details on HPE Qualified Options Limited Warranty visit: 3-year parts, 0-year labor, and 0-year on-site support coverage. For more warranty information refer to https://support.hpe.com/hpesc/public/docDisplay?docId=sd00004309en_us	

HPE Services

No matter where you are in your transformation journey, you can count on HPE Services to deliver the expertise you need when, where and how you need it. From strategy and planning to deployment, ongoing operations and beyond, our experts can help you realize your digital ambitions.

Advisory & Professional services

Experts can help you map out your path to hybrid cloud and optimize your operations.

Managed services

HPE runs your IT operations, giving you unified control, so can focus on innovation.

Support services

Optimize your entire IT environment and drive innovation. Manage day-to-day IT operational tasks while freeing up valuable time and resources.

- **HPE Complete Care Service:** a modular service designed to help optimize your entire IT environment and achieve agreed upon IT outcomes and business goals. All delivered by an assigned team of HPE experts.
- **HPE Tech Care Service:** the operational service experience for HPE products. The service provides access to product specific experts, an AI driven digital experience, and general technical guidance to help reduce risk and search for ways to do things better.
- **HPE Multivendor Services:** Single point of accountability for managing on-site hardware and software support for multivendor products. HPE experts help manage your IT across technologies and platforms for HPE and non-HPE technologies, acting as the single point of contact for your IT operational needs.

Lifecycle Services

Address your specific IT deployment project needs with tailored project management and deployment services.

HPE Education Services

Training and certification designed for IT and business professionals across all industries. Create learning paths to expand proficiency in a specific subject. Schedule training in a way that works best for your business with flexible continuous learning options

Defective Media Retention is optional and allows you to retain Disk or eligible SSD/Flash Drives replaced by HPE due to malfunction.

GreenLake

[GreenLake](#) is the cloud to run and manage your entire hybrid landscape—private, public, and edge. It helps you to:

- Streamline IT Operations across compute, storage, and networking without the chaos
- Unify and secure data, as you move faster
- Accelerate AI, from pilot to production

The result: greater operational efficiency, lower TCO, and faster AI delivery—all from one unified, intelligent platform built for today's hybrid enterprise.
